

## ROYAL MEDICAL BOARD PROMOTES CONFERENCE

CHICAGO - Under the patronage of HRH Princess Katherine and her Foundation, Lifeline-Chicago has announced the formation of the Royal Medical Board for the USA. The role of the board is to organize the participation of American physicians in the Fourth Medical Diaspora Conference scheduled for May 16-18 in Belgrade.

Co-Chairs are Dr. Ana Stankovic, and Dr. Nada Milosavljevic of Boston, and Dr. Dragana Cupic of Chicago. Other Board members are Dr. Ljuba Stojiljkovic, Dr. Zika Pavlovic, and Dr. Ervin Kocjancic of Chicago, and Dr. Dejan Budimirovic of Baltimore.

The Royal Medical Board will work in cooperation with other Royal Medical Boards from Canada, Australia and Europe as well as with the Princess' Foundation, the Serbian Ministry of Health, the Belgrade University School of Medicine and the World Health Organization.

They are currently seeking interested medical practitioners to expand participation. All in-

quiries related to the conference may be directed to the secretary of the Serbian American Medical Board Kate Hentschel at [kathryn.hentschel@gmail.com](mailto:kathryn.hentschel@gmail.com), copy to [sdmc@pkfond.rs](mailto:sdmc@pkfond.rs).

The main idea behind the Conference is to establish a network between the medical staff of Serbia and the Diaspora.

"After a very successful Conference that took place in last June in Belgrade, we would once again like to invite medical practitioners to come and share their academic and professional experience with our medical doctors in Serbia," said Dusan Babac in an outreach. "With your support the medical doctors in Serbia will have the opportunity to share your knowledge and experience with their colleagues, which will benefit the people of Serbia."

Registration may be completed directly through the conference website at [www.serbiandiasporamedical.rs](http://www.serbiandiasporamedical.rs).
